

To import the dataset, please

1. Download the file to local storage using the buttons in the photo

2. Import from URL. For example, you can import the “Glass.txt” file using the following

```
url <- "https://raw.githubusercontent.com/summer072591/MTHS5051B-MTHS6046B/refs/heads/main/Glass.txt"
```

```
df <- read.csv(url)
```
